

FERGUSON
PETIT GRIS

The image shows a yellow Heller model kit box for the Ferguson Petit Gris tractor. The box features a large illustration of a man in a blue shirt and cap driving the tractor through a field with many white birds flying overhead. The box includes the Heller logo, the model name 'FERGUSON PETIT GRIS', the scale '1/24', and the piece count '128 Pieces'. It also shows a small diagram of the tractor's assembly and a barcode at the bottom left. The box is labeled with the reference number 81401 and the website www.heller.fr.

Français

La Standard Motor Company de Coventry (Grande-Bretagne) a fabriqué des tracteurs Ferguson à partir de 1946 (TE = Tractor England). En France, ils ont été assemblés par Standard Hotchkiss à Saint Denis (modèles TE-20, surnommé Petit-Gris) à partir de 1952. 1956 a été converti en une construction entièrement française (modèles FF30) jusqu'à l'arrêt de la production en 1958. Le TE-20 est équipé d'un «attelage trois points», qui a été inventé par Harry Ferguson et se retrouve dans tous les tracteurs modernes aujourd'hui. Toujours de couleur grise, il est devenu un grand succès commercial disponible en 3 largeurs: standard, étroit et vigneron. Le FF-30 était un TE-20 avec des différences mineures (forme du siège, emplacement de la batterie, moteur et châssis peints en rouge).

English

The Standard Motor Company in Coventry (Great Britain) manufactured Ferguson tractors from 1946 (TE = Tractor England). In France they were assembled by Standard Hotchkiss in Saint Denis (models TE-20, "Little Grey Fergie") from 1952. 1956 was converted to a completely French construction (models FF30) until production was discontinued in 1958. The TE-20 is equipped with a „three-point hitch“, which was invented by Harry Ferguson and can be found in every modern tractor today. Always colored gray, it became a great commercial success that was available in 3 widths: standard, narrow and winemaker. The FF-30 was a TE-20 with minor differences (seat shape, battery location, red-painted engine and chassis).

Deutsch

Die Standard Motor Company in Coventry (Großbritannien) stellte ab 1946 Ferguson-Traktoren her (TE = Traktor England). In Frankreich wurden sie ab 1952 von Standard-Hotchkiss in Saint Denis (Modelle TE-20, auch „der kleine graue“ genannt) zusammengebaut. 1956 wurde auf eine komplett französische Konstruktion umgestellt (Modelle FF30), bis die Produktion 1958 eingestellt wurde. Das Modell TE-20 ist mit einer „Dreipunktaufhängung“ ausgestattet, die von Harry Ferguson erfunden wurde und heute in jedem modernen Schlepper zu finden ist. Immer grau gefärbt, wurde er ein großer kommerzieller Erfolg, der in 3 Breiten erhältlich war: Standard, Schmal und Winzer. Der FF-30 war ein TE-20 mit kleinen Änderungen (die Form der Sitze, Lagerung der Batterie, Motor und Chassis rotgefärbt).

Español

La Standard Motor Company en Coventry (Gran Bretaña) fabricó los tractores Ferguson (TE = Tractor England) desde 1946. En Francia, Standard Hotchkiss los montó a partir de 1952 en Saint Denis (modelos TE-20, también llamado Pequeño Gris). En 1956, la compañía cambió a un diseño completamente francés (modelos FF30) hasta que la producción se interrumpió en 1958. El modelo TE-20 está equipado con un «enganche de tres puntos», inventado por Harry Ferguson, que se puede encontrar en todos los tractores modernos de hoy en día. Siempre de color gris, se convirtió en un gran éxito comercial y estaba disponible en 3 anchos: estándar, estrecho y vinícola. El FF-30 era un TE-20 con diferencias menores (forma del asiento, ubicación de la batería, motor y chasis pintados de rojo).

Nederlands

De Standard Motor Company in Coventry (Groot-Brittannië) produceerde Ferguson-tractoren vanaf 1946 (TE = Tractor England). In Frankrijk werden ze vanaf 1952 geassembleerd door Standard Hotchkiss in Saint Denis (modellen TE-20, ook wel Kleine Grey genoemd). In 1956 werden ze omgebouwd tot een volledig Franse constructie (modellen FF30), totdat de productie in 1958 werd stopgezet. De TE-20 is uitgerust met een „driepuntsbok“, uitgevonden door Harry Ferguson. Dit is tegenwoordig in elke moderne tractor te vinden. Het werd een groot commercieel succes dat steeds verkrijgbaar was in grijze kleur en in 3 breedte: standaard, smal en wijnmaker. De FF-30 was een TE-20 met kleine wijzigingen (de vorm van de zetels, de opslagruimte voor de batterijen, de motor en het roodgekleurde chassis).

Italiano

La Standard Motor Company di Coventry (Gran Bretagna) produsse trattori Ferguson dal 1946 (TE = Tractor England). In Francia venivano assemblati dalla Standard Hotchkiss a Saint Denis (modelli TE-20, detto anche Piccolo Grigio) dal 1952. Nel 1956 il modello fu convertito in una costruzione completamente francese (modelli FF30) fino a quando nel 1958 la produzione fu interrotta. Il TE-20 è dotato di una "sospensione a tre punti", che era stata inventata da Harry Ferguson e che oggi si ritrova in ogni trattore moderno. Sempre di colore grigio, divenne un grande successo commerciale disponibile in 3 larghezze: standard, stretto e da enologo. L'FF-30 era un TE-20 con piccole differenze (forma del sedile, posizione della batteria, motore e telaio dipinti di rosso).
